

Curriculum Area: Art Year: 9
2015/2016

Topics	Year Curriculum	How you can support learning at home, eg. Books, websites, family learning through visits.
Natural forms and the Formal Elements of Art: Work produced for the Y9 module is based on the theme of natural forms and culminates in a personal response designed to reflect the independent development of ideas that students undertake in KS4. Students study and explore the various properties of a range of natural forms both as primary and secondary sources.	In Y9 we seek to give students an experience of what will be expected of them should they take the subject for G.C.S.E. Students are encouraged to develop their observational drawing and painting skills as well as experimenting with a range of other 2D and 3D media. We introduce students to the formal elements of Art and explore how they and other artists use them within their work.	http://www.theartstory.org/section_artists.htm http://www.bbc.co.uk/schools/gcsebitesize/art/
