

How to log into Sparx platforms – Sheffield Springs Academy

Below details 2 methods in which students can access the following sites:

- www.sparxmaths.uk (Y7-11 math homework)
- www.sparxscience.com (Y7-11 science homework)
- www.sparxreader.com (Y7-9 English homework)

Method 1

- Your child should access the relevant site and click “log in using Microsoft”.
- From here, they should enter their school email address – this is their school/computer username with @sheffieldsprings.org at the end e.g. 21ASurname@sheffieldsprings.org.
- Their password for logging in is the same password for any school computer. Students can speak to their form tutor should they need this resetting.

Method 2

- Students can log in using the username and password function. Their username will be their first and last name with no gaps e.g. Johnsmith.
- All students’ passwords are set to default Abc12345. Students can change their password once logged in if required.
- If a student forgets their password, they can request a new one from their form tutor.

The image shows a screenshot of the 'Log in to Sparx Science' page. At the top, it says 'Log in to Sparx Science' and 'You're logging into Sheffield Springs Academy'. Below this is a link for 'Not your school?'. The main login area has two options: 'Log in to Sparx using Microsoft' (with a Windows logo) and 'Use your Sparx login'. The 'Use your Sparx login' section has a 'Username:' field with 'sparxuser10' and a 'Password:' field with the placeholder 'Enter your password'. There is a 'Log in' button and a link for 'Forgot login details?'. At the bottom, there is a link for 'New student?'. Annotations include a box labeled 'Method 1' with an arrow pointing to the Microsoft login button, a box labeled 'Method 2' with an arrow pointing to the 'Use your Sparx login' section, and an arrow pointing up to the 'New student?' link.

If the above methods do not work, then students can click the “new student” section and fill in the relevant details.
